### International Shipping

Small items ship International airmail to Canada and other international destinations. Sorry, we do not ship instruments internationally.

You may be subject to import duties and taxes, which are levied once a shipment reaches your country. Additional charges for customs clearance must be borne by you; we have no control over these charges and cannot predict what they may be. Customs policies vary widely from country to country; you should contact your local customs office for further information. Additionally, when ordering from PlayBetter-Bluegrass.com, you are considered the importer of record and must comply with all laws and regulations of the country in which you are receiving the goods.

Generally, customs forms for international packages will list the value of your order's contents by product type.

International customers should be aware that cross-border shipments are subject to opening and inspection by customs authorities.
